Corporeality: The Body and Society
Regardless of how a person spends her or his day, in a classroom, in work or outside employment, whatever our thoughts, beliefs and experiences of life, all living is embodied. We are of and within our bodies. During the last thirty years, social scientists have increasingly turned their attention to the body as a site of both theoretical engagement and empirical exploration. Recently, public discourse has also become preoccupied with embodied debates: the ‘obesity crisis’ and the London 2012 Paralympics have located the body firmly in the realm of public interest. The new essays collected in Corporeality: The Body and Society demonstrate some of the unique advantages attainable through studying the body sociologically. Focusing on a series of embodied fields related to lifestyle media, war, disability, drugs and mental health, the book re-states the fundamental importance of a body-centred approach in the social sciences. Work by established experts in the field sits side by side with new voices to provide an accessible and stimulating snapshot of the role of the body in society in the early twenty-first century.

Introduction
Corporeality: The Body and Society
Cassandra A. Ogden and Stephen Wakeman
Transforming Fat Bodies: Lifestyle Media and Corporeal Responsibility
Jayne Raisborough
Using Women: Embodied Deviance, Pollution and Reproductive Regimes
Elizabeth Ettorre
For an Embodied Sociology of Drug Use: Mephedrone and “Corporeal Pleasure”
Stephen Wakeman
Why Critical Disability Studies?
Dan Goodley
Surveillance of the Leaky Child: No-body’s Normal but that Doesn’t Stop Us Trying
Cassandra A. Ogden
Mercenary Killer or Embodied Veteran?
The Case of Paul Slough and the Nisour Square Massacre
Paul Higate
Commemorating Fatalities of War and National Identity in the Twenty-First Century
Michael S. Drake
Governing the Body:
The Legal, Administrative and Discursive Control of the Psychiatric Patient
Paul Taylor
