

Consent to Disclose to Individuals

We need you to give us written permission to discuss your reasonable adjustments and support provided by Disability & Inclusion with individuals outside the department. This includes parents / guardians. You can retract consent at any time by contacting Disability & Inclusion via disability@chester.ac.uk.

This consent is explicit to reasonable adjustments and support through Disability & Inclusion and does not extend to the wider Student Services or University Departments. If you wish for someone to liaise with the University regarding these services, you will need to seek specific consent from those Departments, e.g., Wellbeing & Mental Health, Registry Services etc.

Disability & Inclusion reserves the right to refuse to involve or to continue to involve a third party if:

- contact has a negative impact on staff time
- the third party is behaving in an aggressive or threatening way
